## Go out into the wide world on the Grand Coast!

Press **M** to bring up the large map and tap the "Monsters" label to show the levels of the various monsters. Wherever things go, go there. These monsters are in groups with a boss, which makes us level up quickly (if you don't die first). In this first map, you may rise level up to 100, But it must be quite tight. Or if you like taking risks, try going to map 2 by buying a teleport scroll from the miscellaneous shop for warp to the city of Tesselio and talk with NPC to change map to Caernarvon map. You must be level 60+ to access this map first. Be careful here. Besides there are a lot of monsters. The heels are equally numerous.

## Get back to receive LevelUp80 quest!

Before going anywhere far Don't forget, if you reach level 80, come back and accept the **LevelUp80** quest at the trainer to receive the cool one armor. Then you can go back to fighting.

## Adventure into the really wide world Caernarvon!

When your level almost to 100, you should move to experience the new world on the Caernarvon map, which is considered brutal with both monsters and enymies. High-level items drop here too. Press M and see the monster's level color. Then let's go out and fight!!
